

The E 1100 with genset is back and even better!

The new custom generator is designed with rental friendliness and performance in mind. With an external oil drain and easy-access air, fuel and oil filters, you'll maximize your uptime and minimize your maintenance time. When Nature shows its worst, the on-board load management system keeps you going with no chance of wet-stacking. Trust your E1100's performance monitoring strobe - this sound attenuated generator is so quiet you may just forget it's running!

**New
Custom
Genset for
the E 1100**
