

ULTRAVIEW™

CLEAR TUBE, RIGHT LUBE™

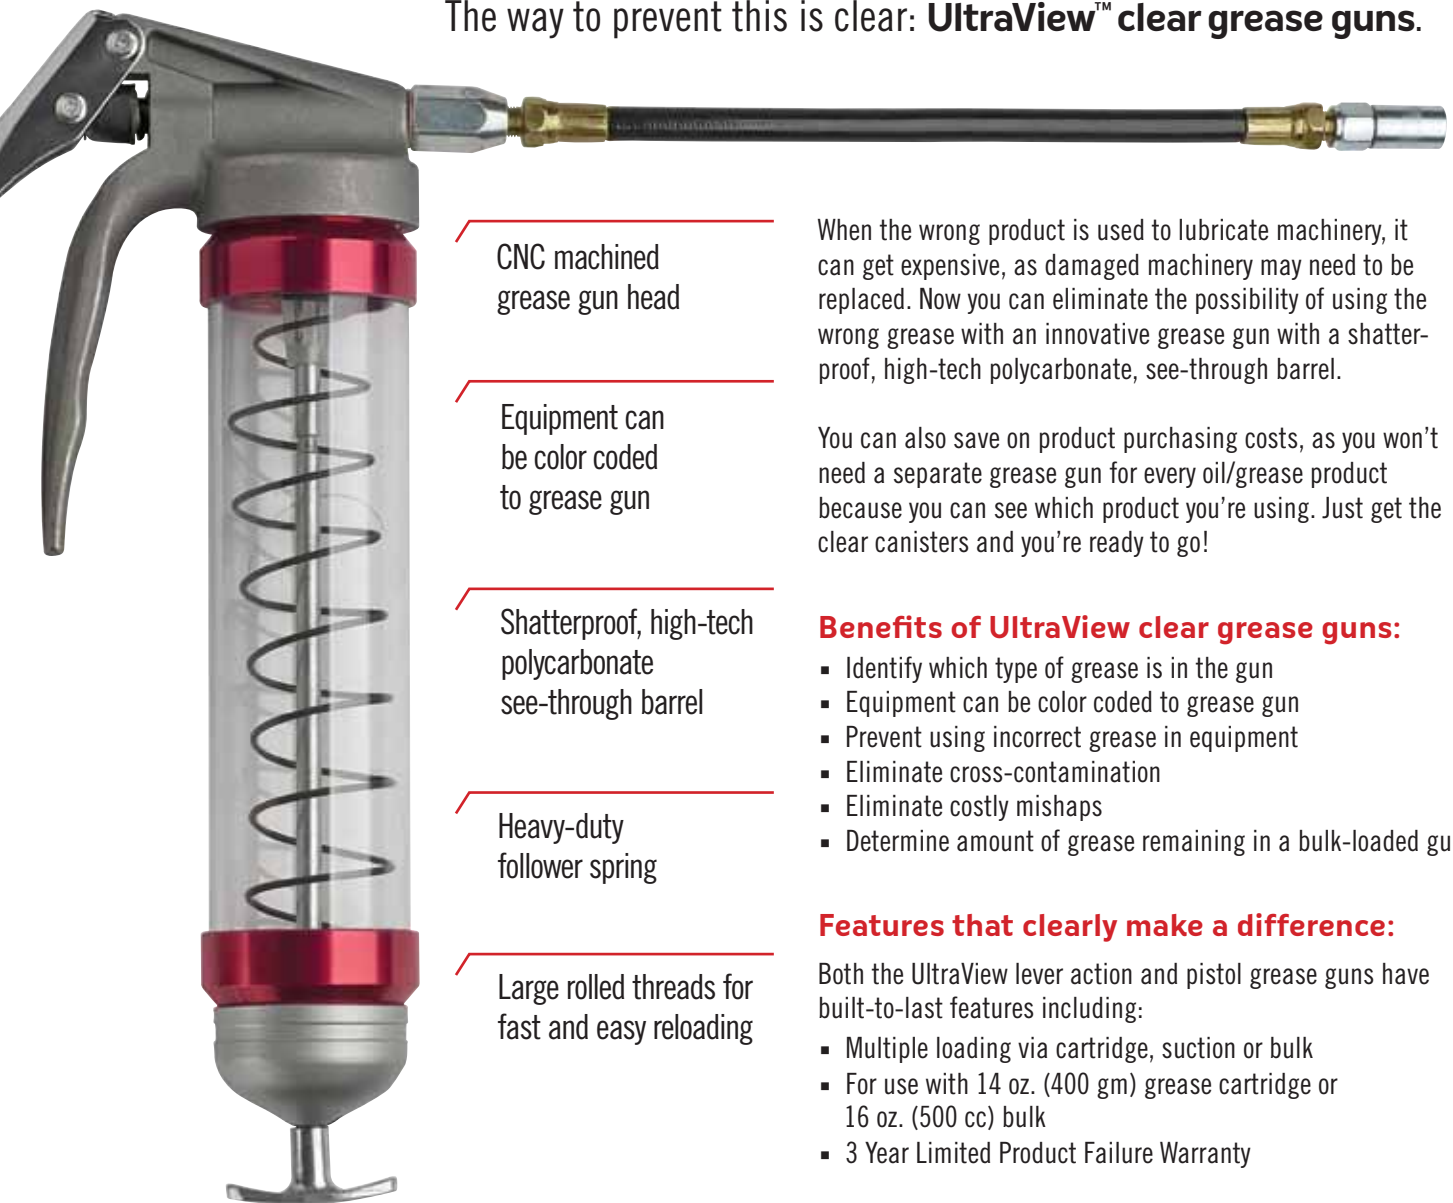

*The CLEAR solution
to cross-contamination.*

PLEWS 
LubriMatic

To stop cross-contamination, the answer is clear.

Cross-contamination is the cause of 60 to 80% of bearing failures. The way to prevent this is clear: **UltraView™ clear grease guns.**

CNC machined grease gun head

When the wrong product is used to lubricate machinery, it can get expensive, as damaged machinery may need to be replaced. Now you can eliminate the possibility of using the wrong grease with an innovative grease gun with a shatter-proof, high-tech polycarbonate, see-through barrel.

Equipment can be color coded to grease gun

You can also save on product purchasing costs, as you won't need a separate grease gun for every oil/grease product because you can see which product you're using. Just get the clear canisters and you're ready to go!

Shatterproof, high-tech polycarbonate see-through barrel

Benefits of UltraView clear grease guns:

- Identify which type of grease is in the gun
- Equipment can be color coded to grease gun
- Prevent using incorrect grease in equipment
- Eliminate cross-contamination
- Eliminate costly mishaps
- Determine amount of grease remaining in a bulk-loaded gun

Heavy-duty follower spring

Features that clearly make a difference:

Both the UltraView lever action and pistol grease guns have built-to-last features including:

- Multiple loading via cartridge, suction or bulk
- For use with 14 oz. (400 gm) grease cartridge or 16 oz. (500 cc) bulk
- 3 Year Limited Product Failure Warranty

Large rolled threads for fast and easy reloading

Lever Action Grease Gun 30-700

- Develops 8,000 PSI (550 BAR)
- Variable stroke feature built in for use in confined areas
- Delivers 1.5 oz. grease per 40 strokes
- High tolerance aluminum die cast grease gun head
- Heavy-duty follower spring
- Complete with 5.5" (139 mm) curved steel extension and 12" (300 mm) flexible hose and coupler with ball check

Pistol Grease Gun 30-720

- Develops 5,000 PSI (345 BAR)
- Delivers 1 oz. of grease per 40 strokes
- Comfortable one-hand operation
- Unique bulk loader fitting doubles as an air bleeder
- Pistol handle designed to prevent fingers from "pinching"
- Heavy-duty aluminum die cast head
- Complete with 5" (127 mm) steel extension and 12" (300 mm) flexible hose and coupler with ball check

Suction Gun 30-740

- Visually see exactly what is inside
- Determine amount of dirt or impurities in system
- High-tech polycarbonate, shatterproof, see-through barrel
- For draining gear cases, transmissions and differentials
- Use with any type of non-corrosive liquid
- One pint (16 oz.) capacity
- 12" clear hose
- 9-3/4" stroke

Add some color. Eliminate costly mishaps.

UltraView clear tubes are available in seven colors for your grease gun. Fits 2.280-16 UNS non-standard threads.

- Alemite 500, 590, 525
- Lincoln 1132, 1133, 1134 (new models), 1142, 1145, 1147, 1148
- Zee Line 444, 610, 613, 619, 620, HD4, HD4A

Lube Point Positive ID System (LPPID)

LPPID is a patent-pending color coordinating system that matches the Zerk fitting to the color of the UltraView clear grease gun tube. 2 sizes available, 7 colors each (part numbers below). 25 per bag.

Fits 1/4" -28 grease fittings
