*3" extensions

Our Skid Steer Vibratory Compactor is ideal for windmill projects, golf courses, irrigation systems, gas, water and cable lines, phone lines, pipeline trenching, government projects, and more. The SP42 hydraulic vibratory compactor unit comes with a 42-inch diameter wheel and is designed for trenches up to 24 inches in width and 37 inches deep.

The SP42 vibratory compactor also has available optional extensions of three inches per side, which will change a four to a six-inch wheel to a ten to a twelve inch wheel. These extensions are bolt-on and have a split-ring design which enables you to easily install them without removing the wheel
