SOIL CONNECT eREGULATORY

## Introducing eRegulatory℠

DO MORE WITH SOIL CONNECT eRegulatory.
SAY GOODBYE TO TRADITIONAL PAPER MANIFESTS.

SOIL CONNECT'S EXCLUSIVE, PATENT PENDING eREGULATORY MODULE AUTOMATICALLY CAPTURES AND SAVES ESSENTIAL TRUCK, LOAD AND ROUTE DATA — THAT MAKES SHARING WITH REGULATORY AGENCIES AND OTHER STAKEHOLDERS EASIER THAN EVER. eREGULATORY LETS YOU EASILY STORE AND KEEP TRACK OF ALL MANIFESTS, WHILE TURN-BY-TURN TRACKING ESTABLISHES A CHAIN OF CUSTODY PROTECTING YOUR ASSETS AND MINIMIZING RISK.

NO MORE PAPER

- eManifest eliminates the need to print paper manifests (cost savings)
- Eliminate input errors from drivers and subcontractors (accuracy)
- Never manually fill out manifests again (time savings)
- Quickly search your digital database for any manifest (time savings)

TRACKING

- Turn-by-turn history of GPS tracking for drivers and subhaulers
- Load "audit trail" to track your materials from start to finish
- Ensure compliance from your drivers and subhaulers

CONTACTLESS

- Keep drivers safe (in the truck)
- Increase productivity (less time out of the truck equals the opportunity for more loads moved)
- All loads confirmed with signature logs

eREGULATORY IS AVAILABLE THROUGH SOIL CONNECT eTICKETS — THE JOBSITE TOOL FOR EVERYONE AND ANYONE THAT PLAYS IN THE DIRT.
