

EXTENDED WARRANTY FOR YOUR KUBOTA ENGINE

Powered By Kubota
Kubota

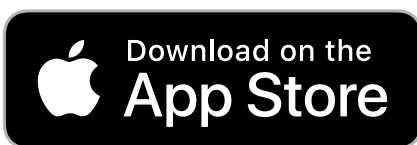

Kubota Engine America is extending the standard product warranty by adding one year and 1,000 hours for a total of three years and 3,000 hours, whichever occurs first. The extended warranty will be effective on Kubota engines in new equipment operated in the United States or Canada starting January 1, 2022.

The extended warranty applies to the following applications:

- Air Compressors
- Light Towers
- Mobile Elevated Work Platforms (MEWP)
- Generators (excluding Marine, RV and Kubota-branded generators)

The Kubota engine must be registered at the time of sale. Registration of the engine can be completed one of two ways: (1) Visit the KEA website and click on "Register my Kubota Engine." (2) Use the Kubota Engine America service app and scan the engine barcode. The app is available to download for free via the Apple App store or the Google Play store.

For more information about our warranties and service app visit our website.
