

30TH INTERNATIONAL TRADE FAIR FOR CONSTRUCTION MACHINERY, BUILDING MATERIAL MACHINES, MINING MACHINES, CONSTRUCTION VEHICLES AND CONSTRUCTION EQUIPMENT

Brief description:

bauma is the world's largest and probably most important trade fair for the building industry. The trade fair, which was established over 50 years ago, presents a comprehensive international product range in the area of construction machinery, construction equipment and vehicles and mining machines. bauma is a hub for international business and an important venue for gathering information and establishing contacts, where building and construction experts from all over the world can inform themselves about state-of-the-art technology.

Key data:

Frequency: every three years
Venue: New Munich Trade Fair Centre
Messegelaende
81823 Muenchen
Germany

Opening hours:

Mon – Fri 9.30 a.m. - 6.30 p.m.
Sat 8.30 a.m. - 6.30 p.m.
Sun 9.30 a.m. - 4.30 p.m.

Quality features:

- 95% of the visitors rated bauma 2010 "excellent to good" overall
- 53% of the visitors of bauma 2010 have a top position in their company and 79% of the visitors are "decision-makers"
- 98% of the visitors recommend visiting probably

Visitor target groups:

Manufacturers, suppliers and service providers from the construction and building materials industry; purchasing decision-makers

International co-operations:

Fachverband Bau- und Baustoffmaschinen,
Fachverband Bergbaumaschinen
im VDMA e.V., Frankfurt/Main

CECE
Committee for European Construction
Equipment

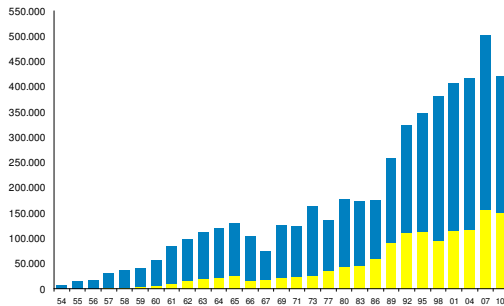

Product range:

- 1. All Around Construction Sites**
 - 1.1 Construction vehicles
 - 1.2 Construction machines
 - 1.3 Lifting appliances and conveyors
 - 1.4 Construction equipment, tools and special systems
 - 1.5 Handling and processing concrete and mortar at construction sites
 - 1.6 Formwork and scaffoldings
 - 1.7 Site installations
- 2. Mining, Extraction and Processing of Raw Materials**
 - 2.1 Machines for extraction of raw materials and for mining
 - 2.2 Handling of raw materials
 - 2.3 Mineral processing (incl. coke oven equipment)
- 3. Production of Building Materials**
 - 3.1 Manufacture of cement, lime and gypsum compounds for building materials
 - 3.2 Machines and systems for producing concrete, concrete products and pre-fabricated components
 - 3.3 Machines and plants for producing asphalt
 - 3.4 Machines and plants for producing pre-mixed dry mortar, plaster, screed and building supply store products
 - 3.5 Machines and plants for producing lime sandstone and building products using power plant residue (fly ash, slag, etc.)
 - 3.6 Machines and systems for producing gypsum and gypsum plasterboard
 - 3.7 Building material handling and packaging (in a plant)
- 4. Component and Service Suppliers**
 - 4.1 Transmission engineering, fluid technology and power generation units
 - 4.2 Accessories and wear parts
 - 4.3 Services
 - 4.4 Test, measurement and process control engineering
 - 4.5 Communication and navigation
 - 4.6 Job safety

bauma 2010 in retrospect

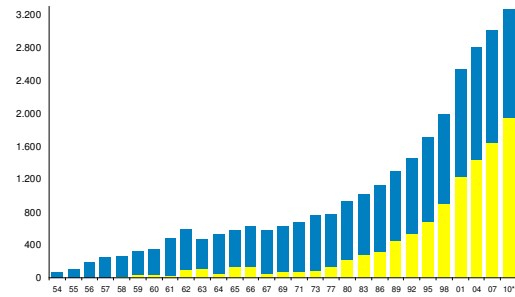

Visitors

Space:

2010: 555,000 sqm (5,973,970 sq ft)
2007: 540,000 sqm (5,812,512 sq ft)

Exhibitors

From other countries

From Germany

Mining section 2010 Best opportunities for mining:

Since 2004, the mining sector has been integrated into bauma. In 2010, no less than **90%** of the visitors judged the integration of the mining area as “**good**” or “**excellent.**” The high quality and quantity of visitors were proof of its success.

The **605 exhibitors** involved in the mining sector—about 19 % of all the exhibiting companies, were of the same mind.

There is no doubt that the mining sector at bauma benefited from the massively global character of bauma itself and enjoyed being part of the strong demand world-wide in the construction and mining industries.
