This activity is jointly provided by Global Education Group and Integritas Communications.

This activity is supported by an educational grant from AstraZeneca.

This event is not part of the official Scientific Sessions
Conference 2022 as planned by the AHA Committee on
Scientific Sessions Programming.

FACULTY

Biykem Bozkurt, MD, PhD, FHFA, FACC, FAHA, FACP

*The Mary and Gordon Cain Chair and
Professor of Medicine
Associate Provost of Faculty Affairs
Senior Associate Dean of Faculty Development
Director, Winters Center for Heart Failure Research
Houston, Texas*

Javed Butler, MD MPH MBA

*President, Baylor Scott and White Research Institute
Dallas, Texas
Distinguished Professor of Medicine
University of Mississippi
Jackson, Mississippi*

Christopher P. Cannon, MD

*Education Director, Cardiovascular Innovation
Preventive Cardiology Section, Brigham and
Women's Hospital
Remote faculty, Clinician-Scientist,
CPC Clinical Research
Professor of Medicine, Harvard Medical School
Boston, Massachusetts*

PROGRAM OVERVIEW

Heart failure medicine is dynamic, with recent approvals for use of SGLT2 inhibitors, and updated recommendations for definition, staging, and classification of heart failure. As heart failure therapies overlap into other specialties, it is more important than ever to use a patient-centered, multidisciplinary care team model. In this 90-minute Call-a-Colleague presentation, three experts will discuss the new consensus recommendations for heart failure and the evidence for using SGLT2 inhibitors in patients with different classes of heart failure as well as comorbidities. To illustrate how to individualize treatment regimens and the nuances of heart failure care, they will call in specialist colleagues for consults about practical considerations for prescribing SGLT2 inhibitors.

EDUCATIONAL OBJECTIVES

After completing this activity, the participant should be better able to:

- Evaluate patients with heart failure based on new consensus recommendations for definition, staging, and classification
- Discuss the clinical profiles, trial designs, and recent data for SGLT-2 inhibitors in patients with HFrEF or HFpEF, including cardiovascular and renal outcomes
- Incorporate SGLT-2 inhibitors into treatment algorithms for heart failure to reflect appropriate patient selection, safety considerations, and prescribing recommendations
- Individualize treatment regimens for patients with heart failure with consideration of case presentation, practice guidelines, newly published evidence, and comorbidities, such as CKD

Physician Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Global Education Group (Global) and Integritas. Global is accredited by the ACCME to provide continuing medical education for physicians.

*This CME/CE activity complies with all requirements of the federal Physician Payment Sunshine Act. If a reportable event is associated with this activity, the accredited provider managing the program will provide the appropriate physician data to the Open Payments database.

Physician Credit Designation

Global Education Group designates this live activity for a maximum of 1.5 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nursing Continuing Education

Global Education Group is accredited with distinction as a provider of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.

This educational activity for 1.5 contact hours is provided by Global Education Group. Nurses should claim only the credit commensurate with the extent of their participation in the activity.

Americans with Disabilities Act

♿ Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact Mara Simpson prior to the live event at msimpson@integritasgrp.com.
