

#ISC23 exhibitors

Acandis Inc...... 524
Neurovascular medical device company focused on improving the lives of patients suffering from ischemic and hemorrhagic stroke.

Access TeleCare 903
Access TeleCare was founded in 2004 by a group of physicians with a vision to deliver high-quality, high-acuity specialty care at scale through technology.

Accreditation Commission for Health Care 909
As a national accreditor, ACHC is trusted for providing value, integrity and the industry's best customer service. ACHC offers a comprehensive range of accreditation and certification options across the continuum of care.

Aidoc Medical Ltd...... 323

Allard USA..... 815
Allard USA put its first AFO on the market in 1997. It was a quantum leap in technology using the company's design patents. The R&D team still researches new technology and designs and continues to make Support For Better Life a priority.

ALLM 419
ALLM (ALL Medical) empowers clinicians with the patient-centered approach by providing cloud-based secure communication technologies and decision-support solutions for stroke care and beyond.

American Association of Neuroscience Nurses (AANN) 905
Mission: AANN leads neuroscience health through engagement, education and advocacy. Vision: AANN is indispensable to nurses and neuroscience health care.

American Board of Neuroscience Nursing (ABNN)..... 907
The American Board of Neuroscience Nursing (ABNN) is the independent, not-for-profit corporation established to design, implement and evaluate the certified neuroscience registered nurse (CNRN) and stroke certified registered nurse (SCRN) programs.

American Telephysicians 518
American TelePhysicians is physician-led digital health care and telemedicine company with expertise in building 360° health care ecosystems. The company has launched projects in Africa, Asia, Australia and North America.

Apex Innovations..... 113
New NIHSS+ interactive, avatar-driven, all deficits, NIH Stroke Scale training/certification app. New Hemispheres 3.0; new imPULSE 4.0; engaging education for stroke, neuro, hemodynamics, cardiac, sepsis, rhythms, 12 leads, heart failure and more.

Asahi Intecc 522, B 10960
Asahi is a world-renowned medical device company specializing in the manufacture and sales of guide wires and microcatheters for many vascular applications.

AstraZeneca Pharmaceuticals..... 700, B 10860
AstraZeneca is a global, science-led biopharmaceutical company that focuses on the discovery, development and commercialization of prescription medicines.

Baptist Health Medical Group 602
Baptist Health Medical Group, a physician-led, multispecialty network of providers, is seeking BE/BC physicians who desire a highly collaborative work environment and are dedicated to a patient-first philosophy to grow our network in Kentucky and Indiana.

Baylor Scott & White Health 315
BSWH is the largest not-for-profit health care system in the State of Texas and one of the largest in the United States. Serving a large and diverse population across North and Central Texas.

Bel-Air Pharmaceuticals 914

Biogen 115, B 10460, B 10560
As pioneers in neuroscience, Biogen discovers, develops and delivers worldwide innovative therapies for people living with serious neurological diseases as well as related therapeutic adjacencies.

Boston Scientific 318
For more than 40 years, Boston Scientific has advanced the practice of less-invasive medicine by providing a broad and deep portfolio of innovative products, technologies, and services across a wide range of medical specialties.

Braindate 1110
Stop by the Braindate lounge to participate in the new crowd-sourced peer-to-peer learning experience. You pick the topics—the best way to brainstorm, solve challenges and share expertise while creating meaningful connections. See what's trending and book your Braindate online at <https://isc23.braindate.com>.

Brainomix 1129
Brainomix is an Oxford-based company specializing in the creation of AI-powered imaging biomarkers that enable precision medicine for better treatment decisions in stroke, lung fibrosis and cancer.

BrainQ 208
BrainQ is pioneering a breakthrough cloud-based bioelectric therapy to enable substantial recovery following ischemic stroke. The company's proprietary electromagnetic network targeting field (ENTF) therapy promotes the recovery of neuronal networks.

Bristol-Myers Squibb / Pfizer 622
The Bristol Myers Squibb and Pfizer alliance is a worldwide collaboration bringing together two leading companies focused on cardiovascular disease with a shared vision to reduce NVAF-related stroke and treat DVT/pulmonary embolism events.

Care Directions 213
Care Directions is improving patient care by equipping providers with innovative digital platforms. StrokeNav streamlines and automates data capture and reporting for GWTG. StrokeCP is a post-acute care platform integrated into the EHR.

Centre for Neuro Skills 311
For over 40 years, Centre for Neuro Skills has been recognized as a world leader for providing intensive post-acute community-based brain injury rehabilitation. Our patient-centered programs maximize treatment effect in real world settings.

Cerenovus 821
Cerenovus, part of Johnson & Johnson MedTech, is an emerging leader in neurovascular care.

Chiesi USA, Inc. 904
Chiesi USA is the U.S. affiliate of Chiesi Farmaceutici, S.p.A, a specialty pharmaceutical company committed to the development and commercialization of products for the hospital, rare disease and adjacent specialty care settings.

Circle Cardiovascular Imaging Inc 414
Circle Neurovascular Imaging is built on the foundation of Circle CVI in collaboration with the Calgary Stroke Program, enabling transformation of the acute stroke care pathway through a simpler, pragmatic approach to image interpretation.

CSL Behring 503
CSL Behring's portfolio of innovative medicines includes a wide range of recombinant and plasma-derived products for treating bleeding disorders, immune deficiencies and chronic inflammatory demyelinating polyneuropathy, as well as HAE.

DNV 321
DNV applies its collaborative hospital survey style to stroke program certification. Which of their four certification levels is right for your organization — comprehensive, primary, primary plus, or acute stroke ready?

#ISC23 exhibitors

DWL USA Inc 711

DWL TCD product range has been continuously improved and developed in close cooperation with our users over the years. From the portable basic system to a complete solution with a comprehensive performance spectrum, offered worldwide.

Encompass Health Corporation..... 322

Encompass Health is the nation's largest provider of inpatient rehabilitation with more than 150 hospitals in 36 states and Puerto Rico. Our No. 1 priority is getting your patients back to what matters most to them.

Endophys Technologies 418

Endophys Technologies combines interarterial pressure monitoring with industry-leading arterial access sheath design, providing high-fidelity arterial pressure readings to the monitor, continuously in real time.

EOSolutions Corp. 600

EOSolutions is dedicated to responding to the access needs of the physicians and their patients that we serve. Our Dr Banner balloon guide catheter with its 0.091 ID, superior proximal support and super compliant balloon is currently available.

EyeTech Digital Systems, Inc. 211

EyeTech creates EyeOn speech-generating devices that enable individuals to communicate and express themselves. Whether using symbols or text, communicating in person or online, the company offers a range of solutions that allows people to interact with the world.

Frazer 217

Defining the future of mobile health care. Frazer specializes in EMS vehicles suitable for licensing and use as mobile clinics, mobile stroke units and ambulances with the lowest overall cost of ownership, best HVAC systems and the best power options.

FUJIFILM VisualSonics 706

FUJIFILM VisualSonics is the leader in high-resolution ultrasound systems, specifically designed for cardiovascular research. Offering resolution down to 30 µm and techniques that have been validated in over 2,000 publications.

GalaxyCCRO,inc..... 612

Genentech, A Member

of the Roche Group 615

For more than 40 years, we've been following the science, seeking solutions to unmet medical needs. As a proud member of the Roche Group, we make medicines to treat patients with serious medical conditions. We have headquarters in S. San Francisco.

Genomadix Inc. 520

The Genomadix Cube is a PCR platform that has been reduced to the size of a coffee mug, making it low cost and portable. The simplicity of its design allows for cheek-swab to genetic test result in about an hour.

Getting to the Heart of Stroke™ 301

American Heart Association and American Stroke Association's Getting to the Heart of Stroke initiative, developed in conjunction with and supported by HCA Healthcare and HCA Healthcare Foundation, aims to deepen collaboration between neurology and cardiology to improve stroke care, equitably empower consumers to know and better manage their stroke risk, and improve the overall health of local communities.

Hura Imaging Inc..... 920

Hura Imaging is a medical imaging software company. HuraCTP is the only FDA-cleared denoising software dedicated for CT perfusion significantly improving the diagnostic imaging quality for patients with cardiovascular disease and stroke.

Hyperfine 423

The Swoop Portable MRI System™ allows clinicians to scan patients' brains in various clinical settings, including ICUs and EDs. A complementary system to conventional MRI, Swoop wheels to a patient's bedside and plugs into a standard wall outlet.

IDMED 210

Image Monitoring USA 620

Image Monitoring USA's Dolphin TCD system with robotic TCD monitoring headset and Falcon physiologic vascular testing systems are revolutionizing their markets. Now offering an awesome trade-in. When Nothing but the Best Will Suffice.

ImageTrend..... 514

Hospitals prefer ImageTrend patient registry for its flexible and dynamic nature, and ability to collect and report on the data you need. Collect and maintain registry data for stroke, trauma and cardiac incidents in a single system.

Imperative Care 618, B 11260

Intermountain Healthcare 1006

HealthCare Partners Nevada, a leading network of health care providers and clinics in southern Nevada, has joined Intermountain Healthcare, a large regional organization nationally recognized as one of the nation's top health systems.

JAMA Network 607

JAMA Network advances the study of stroke with high-impact journals, including JAMA, JAMA Neurology and JAMA Network Open. Explore Booth 607 to read the latest articles from journals and learn about publishing with the JAMA Network.

Janssen Pharmaceuticals, Inc..... 921

The Janssen Pharmaceutical Companies of Johnson & Johnson never stop working to create a future where disease is a thing of the past. www.janssen.com

LocumTenens.com 608

Founded in 1995, LocumTenens.com is your full-service locum tenens agency recruiting physicians and advanced practitioners to solve employment shortages for health care facilities across the United States.

Lumosa Therapeutics Co., Ltd..... 521

Lumosa's mission is to enrich the quality of life for patients with acute ischemic stroke through our novel small peptide, LT3001, which can restore cerebral blood flow without impairing homeostasis while protecting tissue at the same time.

MCRA, LLC..... 1100

Medical device and biologics CRO and advisory firm. MCRA's value contribution rests within in its industry experience at integrating % business value creators: regulatory, reimbursement, clinical research, health care compliance and quality assurance.

Medtronic..... 528, B 11162

We lead global health care technology. Our Mission: to alleviate pain, restore health, and extend life, unites a global team of people. Transforming the lives of two people every second, every hour, every day. Medtronic. Engineering the extraordinary.

#ISC23 exhibitors

MicroTransponder Inc...... 817

MicroTransponder is a privately held medical device company with a strong neuroscience research focus. The Vivistim® Paired VNS™ System is an implantable device used to stimulate the vagus nerve during rehab in chronic ischemic stroke patients.

MicroVenton 823, B 11660,B 11662a, B 11760,B 11762a

MicroVenton is a rapidly growing company that has pioneered the development of minimally invasive neuroendovascular technologies that provide therapeutic advantages for neurovascular disorders.

MindMaze 310

MindMaze is a global leader in digital neurotherapeutic solutions for neurological patients. The health care division is advancing a universal platform with breakthrough solutions to some of the world's most challenging brain injuries, such as stroke.

Multigon Industries, Inc.519

Multigon, which built the first TCD with Rune Aaslid, is a pioneer in the development and application of TCD in patient care. Multigon offers all digital state-of-the-art robotic TCDs for both office, monitoring and advanced research.

National Institute of Neurological Disorders and Stroke (NINDS) 917

The NINDS, part of the NIH, provides research funding, common data elements, clinical research programs, research resources, the NIH Stroke Scale and free publications for patients and families on stroke and other neurological disorders.

Net Smart 525

NET SMART stands for Neurovascular Education and Training in Stroke Management and Acute Reperfusion Therapies. NET SMART offers 24x7x365 learner access to comprehensive scientific educational programming that is focused exclusively on acute stroke.

NeuroLogica 1101

NeuroLogica, a subsidiary of Samsung Electronics Co. Ltd., is a global leader in the field of point-of-care computed tomography (CT) imaging. NeuroLogica develops, manufactures and markets all mobile CT scanners from its headquarters in Danvers, Massachusetts. The company's advanced medical technologies are used worldwide in leading health care institutions, helping providers enhance patient care, improve patient satisfaction and increase workflow efficiency.

NeurOptics..... 802

NeurOptics Pupilometer Systems provide trendable, accurate and objective measurement of pupil size and reactivity in any patient requiring a neurological examination. The pupilometer expresses pupil reactivity numerically as NPi.

NeuroScience Associates, Inc...... 601

NSA provides mass production neurohistology. Proprietary MultiBrain® technology embeds, sections and stains up to 40 neuronal tissues (i.e., ICS, H&E, Nissl, custom antibodies). Downloadable slide digitization and remote viewing options available.

Nico Corporation 609

NICO Corporation provides proven technology within a systems approach that integrates imaging and intervention for a safe, minimally disruptive approach to brain surgery. A proven market leader with 10+ years of evidence and 30,000 patients impacted.

Northwell Health..... 505

Northwell Health is New York State's largest health care provider and private employer, with 21 hospitals, 850 outpatient facilities and more than 16,600 affiliated physicians.

NovaSignal 513

NovaSignal is a medical technology and data company that is revolutionizing transcranial Doppler ultrasound through the application of robotics, artificial intelligence, and cloud computing.

Novo Nordisk 604

Novo Nordisk, a global health care company, is committed to discovering and developing innovative medicines to help people living with chronic diseases lead healthier lives.

Olea Medical 409

Olea Medical®, a French provider of advanced MR and CT imaging post-processing, designs and markets a suite of innovative medical imaging applications.

Parkland Hospital 523

Patronus Neurology, LLC 425

Patronus provides elite 24 x 7 comprehensive emergency teleneurology solutions to hospitals and stroke centers for any neurological question or emergency. Our response times put patients in contact with vascular neurologists in less than 2 minutes.

Pelstar/Health O Meter..... 915

Health o meter® Professional Scales is the #1 Medical Scale brand in the USA and an industry leader since 1919.

Penumbra, Inc...... 701

Penumbra, Inc., with headquarters in Alameda, California, is a global health care company focused on innovative therapies.

Perimed Inc 410

Perimed provides state-of-the-art equipment for assessing blood perfusion in great detail. The PeriCam PSI, using LASCA technology, provides new means to study the microcirculation in ways that were not possible in the past. Enhance your research.

Phenox 919, B 11861

Philips..... 325

Philips is a leading health technology company focused on improving people's health and enabling better outcomes across the health continuum – from healthy living and prevention, to diagnosis, treatment and home care.

Pulsara..... 800

Pulsara is a HIPAA-compliant health care communication and logistics platform that unites teams and technologies across organizations, cities, regions and states during dynamic events. In simplest terms, Pulsara connects people when seconds matter.

Q'Apel Medical, Inc. 801

RapidAI 705

RapidAI is the global leader in using AI to combat life-threatening vascular and neurovascular conditions; enabling clinical teams to push the boundaries of care, reducing time to treatment and improving patient outcomes.

RapidPulse, Inc......819, B 11560

RapidPulse develops minimally invasive vascular products for ischemic stroke. The RapidPulse™ Cyclic Aspiration System, is a proprietary and novel aspiration pump to allow rapid and consistent removal of blood clots during AIS.

Rimed USA, Inc. 415

Leaders in Transcranial Doppler machines since 1982. Over 20,000 machines in 120 countries. Rimed also offers Carotid color duplex machines. Rimed offers several different ultrasound machines to address the needs of hospitals and the private market.

RosmanSearch..... 611

RosmanSearch is a highly specialized recruitment firm. The company's mission is to place quality physicians with quality practices, academic departments and hospitals nationwide.

#ISC23 exhibitors

Route 92 Medical..... 327, B 10760
Founded in 2015, Route 92 Medical is a privately held, medical technology company, based in San Mateo, California. Route 92 Medical's mission is to improve outcomes for patients undergoing neurovascular intervention.

RWD Life Science 603
RWD Life Science specializes in life science, animal health care and medical devices. We have achieved a strong reputation and advantage in the fields of neuroscience research, micro-circulation study, drug efficacy evaluation and more.

Saint Luke's Health System 316
Saint Luke's Marion Bloch Neuroscience Institute in Kansas City, Missouri, employs experts who treat the most complex cases. The institute's specialists in neurology, neurointerventional radiology and neurosurgery collaborate for the highest quality care.

Sevaro 509
Sevaro providers 45-second response times by connecting hospitals to our vascular neurologists through the proprietary Sevaro OneCall platform.

Siemens Healthineers...709, B 11960, B 11963
Learn more about stroke solutions from Siemens Healthineers. www.siemens-healthineers.us/stroke-care.

Silk Road Medical 707
Silk Road Medical is focused on reducing the risk of stroke and its devastating impact. The company's TransCarotid Artery Revascularization (TCAR®) system is clinically proven to treat blockages in the carotid artery at risk of causing a stroke.

Stryker..... 1024
Stryker's Neurovascular division is dedicated to providing innovative stroke products and services for ischemic and hemorrhagic stroke and is committed to providing clinical education and support to help physicians deliver better patient outcomes.

Teladoc Health 1018
Teladoc Health empowers all people everywhere to live their healthiest lives by transforming the health care experience. As the world leader in whole-person virtual care, Teladoc Health uses proprietary health signals and personalized interactions to drive better health outcomes across the full continuum of care, at every stage in a person's health journey.

TeleSpecialists 703, B 11460
Founded in 2013, TeleSpecialists is a physician-owned management service organization committed to providing exceptional emergent and non-emergent neurology and psychiatric patient care via telemedicine for hospitals throughout the country.

TeraRecon 215
Serving 1,300 clinical sites globally, TeraRecon, a ConcertAI company, provides AI-empowered radiology, oncology, cardiology, neurology and vascular surgery solutions independent of any one manufacturer's imaging equipment or PACS system.

The Joint Commission..... 1022
The Joint Commission in collaboration with the AHA/ASA offers a suite of stroke and cardiac certifications to provide hospitals with a framework to standardize care processes, reduce variation in care and lower risk.

Twiage..... 704
Twiage is an award-winning digital health company that provides technologies for pre-hospital communication, interfacility transfers and mobile integrated health, enabling EMS, hospitals and other health care providers to accelerate emergency care.

UMiami Gordon Center for Simulation & Innovation in Medical Education 320
The University of Miami Gordon Center offers training programs in prehospital and emergency health care for learners globally. Visit Booth 320 to learn about Advanced Stroke® Life Support Blended Learning, a collaboration with the AHA.

United Biologics, Inc..... 526
United Biologics manufactures and distributes anatomically accurate silicone replications of human vasculature, including common pathologies.

UT Southwestern Peter O'Donnell Jr. Brain Institute 1004
We have assembled neurosurgeons, scientists, neurologists, psychiatrists, radiologists, and rehabilitative medicine. Their common goal: Discover and implement new and better ways to treat brain diseases, and perhaps even prevent them in the future.

VirtualMed Staff 501
Telemedicine solutions that integrate with your existing people, processes and technology.

Vituity 613
As a physician-owned partnership, Vituity's 5,000 providers drive positive change in health care and deliver integrated acute care to nearly 8 million patients nationally. Learn about our innovative solutions to health care challenges at vituity.com.

Vivalink 610
Vivalink offers a Biometrics Data Platform for remote patient monitoring in clinical trials. It combines medical wearable sensors and advanced cloud data services to continuously capture patient vitals and biometrics in virtually any remote setting.

Viz.ai 422, B 11161
Viz.ai is a transformative solution that uses artificial intelligence to unify synchronized care collaboration, high fidelity mobile image viewing, real-time patient information and secure communication to optimize workflows for better patient care.

Wolters Kluwer 702
Wolters Kluwer is proud to publish on behalf of the American Heart Association/American Stroke Association. As the world-leader in cardiovascular and cerebrovascular research, the AHA aren't simply publishing findings - they're publishing solutions.

World Stroke Organization 1016
The World Stroke Organization is the only global body solely focused on stroke. With about 3,000 individual and 100 society members spanning every global region, the WSO represents over 55,000 stroke specialists in clinical, research and community settings.
