# Suggested sessions for Residents

## **C001 – Conquer the Boards: Core Exam & Review**

9 a.m.-12 p.m. | Friday, March 8  
Room 24C

MOC Residents Ticketed

This Certification Exam Prep Course is a hands-on experience in which attendees take a simulated, at-home, shortened version of the American Board of Dermatology certification CORE exams. During the sessions at the Annual Meeting, expert faculty will review exam answers providing high-yield information for the certification CORE exams. Residents attending this course should walk away with a better understanding of the pace and structure of the exam. This activity has been approved by the American Board of Dermatology (ABD) for up to 30 MOC Component 2 Self-Assessment points.

For more information about MOC, please visit the ABD website at [www.abderm.org](http://www.abderm.org)

## **S009 – Gross and Microscopic Symposium**

9 a.m.-1 p.m. | Friday, March 8  
Room 4

Two-day symposium covers the gamut of clinical dermatology, predicated on clinical/pathological correlation, with attention to new and interesting observations. Presentations are grouped into several clinical categories, allowing attendees to focus on particular conditions/entities. Each presentation is five minutes long, including a clinical/pathological case and review of the topic. This symposium is lively and fast-paced, with something for everyone in the audience. Presentations will be clinically germane and applicable to patient care. Symposium is open to all AAD members, non-members, residents, fellows, and medical students.

## **C005 – Conquer the Boards: Applied Exam & Review**

1-4 p.m. | Friday, March 8  
Room 24C

MOC Residents Ticketed

This Certification Exam Prep Course is a hands-on experience in which attendees take a simulated, at-home, shortened version of the American Board of Dermatology certification Applied exam. During the sessions, expert faculty review the answers of the exam, providing high yield information for the certification applied exam. Residents attending this course should walk away with a better understanding of the pace and structure of the exam. This activity has been approved by the American Board of Dermatology (ABD) for up to 30 MOC Component 2 Self-Assessment points.

For more information about MOC, please visit the ABD website at [www.abderm.org](http://www.abderm.org)

## **F019 – Caring for the Cancer Patient: Challenging Cases From Inpatient and Outpatient Oncodermatology Consultative Services**

1-3 p.m. | Friday, March 8  
Room 25B

Dermatologic issues are one of the most common complications in patients undergoing cancer therapy. Knowledge of mucocutaneous toxicities to chemotherapy, immunotherapy, and radiation, neoplasms in cancer patients (particularly cutaneous metastases), paraneoplastic syndromes, complications of stem cell transplant, and infectious diseases of the immunosuppressed is critical in distinguishing the numerous dermatologic conditions that can arise in a patient undergoing cancer treatment. This session covers these key topics in the field of oncodermatology

through illustrative and challenging cases seen at different academic cancer centers to enhance the knowledge of dermatologists, residents, and other practitioners caring for cancer patients.

## **S012 – Gross and Microscopic Symposium**

1-5 p.m. | Friday, March 8  
Room 4

Two-day symposium covers the gamut of clinical dermatology, predicated on clinical/pathological correlation, with attention to new and interesting observations. Presentations are grouped into several clinical categories allowing attendees to focus on particular conditions/entities. Each presentation is five minutes long, including a clinical/pathological case and review of the topic. This symposium is lively and fast paced, with something for everyone in the audience. Presentations will be clinically germane and applicable to patient care. Symposium is open to all AAD members, non-members, residents, fellows, and medical students.

## **U037 – Inpatient Dermatology From Horses to Zebras: Lessons Learned at an Academic Hospital**

7:30-8:30 a.m. | Saturday, March 9  
Room 30D

The role of the astute dermatologist in recognizing cutaneous signs in the hospitalized patient and coordinating interdisciplinary care makes a significant difference in prognosis and management. In a case-based format, we will review a subset of dermatologic emergencies, routine, and unusual inpatient consultations. This session is targeted to dermatology residents, general dermatologists, and dermatologists who see hospital consults.

### **F048 – What's New in Nail Management**

9-11 a.m. | Saturday, March 9

Room 25B

This session highlights an update of common nail problems and their management by world-renown nail experts. Updates on onychomycosis stewardship and emergence of treatment resistant strains, neoplasms, surgery pearls, psoriasis, nail research with practical implications, nail histopathology, simple chronic paronychia, onycholysis and the disappearing nail bed, and pediatric cases will be presented. This session is directed to clinicians, academicians, and residents.

### **S027 – Residents and Fellows Symposium**

9 a.m.-12 p.m. | Saturday, March 9

Room 31B

The Residents and Fellows Symposium is an opportunity to hear about groundbreaking research performed by dermatology residents and fellows. The top 18 projects are selected from a pool of over 100 applicants to give succinct summaries of their research. The Everett C. Fox Award (formerly the Stelwagon Award) is given to the presenters of the most outstanding clinical and laboratory research. This \$3,500 cash award is granted by the American Academy of Dermatology through an endowment created by Dr. Fox and is split evenly between the top award recipients in both the clinical and basic science abstract categories.

### **S029 – Gross and Microscopic Symposium**

9 a.m.-1 p.m. | Saturday, March 9

Room 4

Two-day symposium covers the gamut of clinical dermatology, predicated on clinical/pathological correlation, with attention to new and interesting observations. Presentations are grouped into several clinical categories allowing attendees to focus on particular conditions/entities. Each presentation is five minutes long, including a clinical/pathological case, and review of the topic. This symposium is

lively and fast-paced, with something for everyone in the audience. Presentations will be clinically germane and applicable to patient care. Symposium is open to all AAD members, non-members, residents, fellows, and medical students.

### **S044 – Resident Jeopardy**

1-4 p.m. | Saturday, March 9

Room 23C

Join your colleagues for self-assessment through this popular, fun, and engaging game show format. Contestants representing various residency training programs will face Jeopardy-style queries and image-based inquiries encompassing the breadth of dermatology in a friendly competition. Audience members are invited to play along and test their own knowledge.

Which institution will emerge as the 2024 AAD Resident Jeopardy champion?

### **S034 – Gross and Microscopic Symposium**

1-5 p.m. | Saturday, March 9

Room 4

Two-day symposium covers the gamut of clinical dermatology, predicated on clinical/pathological correlation, with attention to new and interesting observations. Presentations are grouped into several clinical categories allowing attendees to focus on particular conditions/entities. Each presentation is five minutes long, including a clinical/pathological case and review of the topic. This symposium is lively and fast-paced, with something for everyone in the audience. Presentations will be clinically germane and applicable to patient care. Symposium is open to all AAD members, non-members, residents, fellows, and medical students.

### **F084 – Boards and Beyond**

1-3 p.m. | Sunday, March 10

Room 5B

Residents and early-career dermatologists often feel inadequately prepared for the non-dermatologic aspects of medical practice. This session provides practical

insights from speakers who have forged unique paths in dermatology. The session features speakers in academics, private practice, and beyond. There is also a brief review of the style and structure of board exams, along with relevant post-residency requirements (i.e. maintenance of certification requirements). Participants have an opportunity for a panel-like discussion with the speakers during the last 20 minutes of the session.

### **S053 – Boards Blitz**

1-4 p.m. | Sunday, March 10

Room 1B

The in-training and board certification exams require a mastery of a broad breadth of information as dictated by the American Board of Dermatology (ABD). Overwhelmed yet? This interactive session provides key points and tips for identifying and answering questions on the digital image portion of the certification/recertification exams. Attendees have the opportunity to view numerous digital images with associated questions preparing them for the kodachrome portion of the exam. High-yield study material will be covered as the images are reviewed. The session benefits any dermatologist preparing for the ABD certification, recertification, or in-training exam.

This activity has been approved by the American Board of Dermatology (ABD) for up to 30 MOC Component 2 Self-Assessment points. For more information about MOC, please visit the ABD website at [www.abderm.org](http://www.abderm.org).

### **U071 – Medical Dermatology Potpourri: Challenges Faced and Lessons Learned**

4:30-5:30 p.m. | Sunday, March 10

Room 26A

Medical literature is constantly evolving, forcing us to reconsider our practice approach. This session highlights clinical pearls in the evaluation, treatment, and monitoring of complex medical dermatology disorders. Treatment strategies based on the latest available data in the literature will be discussed.

# Suggested Sessions for Young Physicians

## U001 – Simple Tricks and Practical Tips To Optimize the Surgical Experience for You and Your Patients

7:30-8:30 a.m. | Friday, March 8  
Room 31B

This session focuses on surgical tips for the beginner and reminders for the expert. It is filled with practical and simple pearls to enhance the surgical experience, including perioperative preparation, basic excision, suture techniques, laser safety, nail surgery, and post-operative complication prevention. This one-hour session provides you with high yield tips to improve the surgical experience for you and your patients.

## U012 – Bread n’ Butter With a Side of Nutella: Short n’ Sweet, High-Yield Updates on Management of Bread n’ Butter Dermatologic Diseases

7:30-8:30 a.m. | Friday, March 8  
Room 7B

This session reviews the newest evidence-based treatment(s) for common dermatologic diseases, including warts, itch, blistering diseases, psoriasis, as well as updates in dermatopathology in diagnosis of diseases such as melanoma. Practicing dermatologists often do not have time to keep up with the latest evidence in clinical management. This session includes five high-impact, high-yield, “short n’ sweet” updates in management of diseases that dermatologists most commonly encounter.

## F001 – Managing Office Politics of Physicians, Patients, and Personnel: Pick Your Poison

9-11 a.m. | Friday, March 8  
Room 26A

The present economics of office/hospital practice may have allowed for

the insidious onset of seemingly out of control burnout, a toxic environment, difficult people and situations threatening one’s personal ethics and joy of practice. Patients are treated as customers and healthy employee relations threatened by harassment claims and weaponized in social media. This interactive session will review scenarios dealing with management and navigation of the current state of office/hospital politics, focusing on the pitfalls and risks to dermatologists, their staff, and patients. Participants will be given many practical strategies that can be immediately employed to reduce stress.

## S004 – Hot Topics

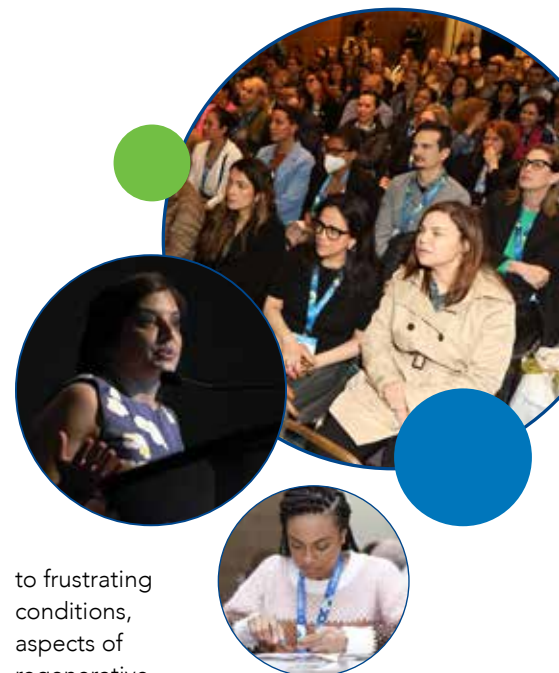

9 a.m.-12 p.m. | Friday, March 8  
Room 20B

The symposium addresses those hot topics established by registrant consensus, a true reflection of member concerns and interests. The session promises a potpourri of medical/surgical topics, including some with social and economic importance. Expert speakers provide state-of-the-art material, highlighting recent trends and developments and accenting emerging and innovative therapies. Presentations are dermatology relevant, clinically germane, and directly applicable to patient care.

## S002 – Pearls: Diagnostic and Therapeutic

9 a.m.-12 p.m. | Friday, March 8  
Room 20A

Faculty will share innovative approaches to a variety of common and perhaps less common conditions. We will present several new cases, new diagnostic approaches, surgical pearls, perhaps some older and forgotten approaches

to frustrating conditions, aspects of regenerative medicine, and especially, off-label recommendations. Interesting approaches to dermoscopic diagnoses will also be presented. Attendees are encouraged to email challenging cases or favorite off-label pearls to [drspstone@gmail.com](mailto:drspstone@gmail.com) for inclusion in our discussions.

## F060 – Young Physician Pearls and Pitfalls: A Survival Guide for the First 10 Years

1-3 p.m. | Saturday, March 9  
Room 25B

This session explores aspects of academic and private practice careers, professional opportunities beyond the practice of clinical medicine, and personal leadership development for early career dermatologists.

## S016 – Business and Leadership: What Dermatologists Should Know

1-4 p.m. | Friday, March 8  
Room 26A

Medicine is one of the largest businesses in the world. Most medical training does not include learning about this important topic. In this session, dermatologists and trainees learn about various aspects of business and leadership in medicine and dermatology.

### **S019 – Nail Symposium**

1-4 p.m. | Friday, March 8  
Room 23C

This session provides the most comprehensive and up-to-date information on diagnosis and treatment of major nail disorders. Recognized experts from around the world discuss the most current scientific evidence regarding onychomycosis, nail unit psoriasis, nail unit lichen planus, trachyonychia, nail unit melanoma, nail disorders in skin of color patients, onycholysis, paronychia, as well as others. Instructive nail cases are also included.

### **S031 – Therapeutic Hotline**

9 a.m.-12 p.m. | Saturday, March 9  
Room 20A

This session reviews new and emerging therapeutic options for managing patients with psoriasis, melanoma, actinic keratoses, acne, rosacea, dyspigmentation, hair diseases, rare diseases, non-melanoma skin cancer, and so much more. The newest and what's hot in dermatology ranging from medical to cosmetic to surgical dermatology will be addressed, and in one 3-hour session, virtually the entire spectrum of dermatology will be covered. There will also be opportunity for two dynamic question-and-answer panels.

### **F056 – Dermoscopy for the Non-Dermoscopist**

1-3 p.m. | Saturday, March 9  
Room 6D

Novice dermoscopists will be taught recognizable dermoscopic patterns to

assist in the diagnosis of pigmented lesions. We will discuss a simple pattern recognition system to be incorporated into routine dermatologic practice.

The session includes dermoscopy of special sites, especially the face and acral surfaces. Participants will be shown unknown cases throughout the session for self-assessment, and the approach to diagnosis of these cases will be reviewed. By incorporating dermoscopy into everyday practice, participants will be able to improve their diagnostic accuracy in detecting melanoma and other skin cancers.

### **F054 – Putting Technology to Work for You and Your Patients: Augmented Intelligence and Its Role in Enhancing the Practice of Dermatology**

1-3 p.m. | Saturday, March 9  
Room 24C

This session is directed at clinicians seeking to further understand the current state and future potential of technology, including AI/AU, in patient care. The area of artificial intelligence (AI) and augmented intelligence (AU) is undergoing rapid development and advancement and has begun to impact the practice of medicine and dermatologic care, including administrative aspect and burdens. Technology holds the potential to enhance access to high-quality, patient-centered, dermatologist-led care. We believe in the central role of clinicians and patients in the development of and responsible use of these data-driven

tools and systems to enhance human intelligence and the care experience for clinicians, staff, and patients alike.

### **U071 – Medical Dermatology Potpourri: Challenges Faced and Lessons Learned**

4:30-5:30 p.m. | Sunday, March 10  
Room 26A

Medical literature is constantly evolving, forcing us to reconsider our practice approach. This session highlights clinical pearls in the evaluation, treatment, and monitoring of complex medical dermatology disorders. Treatment strategies based on the latest available data in the literature will be discussed. This session is geared toward general dermatologists and residents in training.

### **F120 – Making the Most of Your Time: Optimizing Productivity in 2024**

3:30-5:30 p.m. | Monday, March 11  
Room 28D

Increasing productivity, administrative, and regulative demands and the added stress of the pandemic has made attaining work-life balance less realistic for physicians, including dermatologists. Reform is needed to address this, but time management strategies offer a sense of autonomy and control, as well as help ensure you are using your time the most intentionally. A panel of dermatologists from various practice settings offer practical time management tips, including efficiency tips for clinic, using technology for efficiency, and using mindfulness as a time management tool.

## **Access approximately 200 sessions from the meeting!**

2024 Annual Meeting On-Demand is the perfect way to review sessions you attended or catch ones you missed. You'll get access to the PowerPoint presentations and audio of the selected sessions. New this year, claim CME credit for the sessions you watch on-demand!

**Meeting attendees receive an exclusive discount on-site.  
Visit the AAD Resource Center in the Exhibit Hall, Booth 739.**

# Top 10 Tips

## for making the most of your Annual Meeting

- 1 Plan ahead!** A pro tip to ensure you make the most of your time at the meeting is to plan your schedule before you arrive in San Diego. It can be overwhelming once you enter the convention center, so have your plan in place and hit the ground running. Suggested sessions for Residents are on pages 3 and 4. Scan the QR code at right or view the program here <https://am2024.aad.org/sessions>. 
- 2 The AAD Meeting App is your best friend.** The AAD Meeting App is where you'll find all the important information you need. Your go-to spot for information on sessions, the Exhibit Hall, daily events, and everything meeting-related, right in your hand. Find it in the App store or visit [aad.org/mobile](https://aad.org/mobile).
- 3 Ask questions!** The AAD Annual Meeting is a friendly environment of dermatologists at various career stages eager to present their work and thrilled to engage in conversations. Take advantage of this opportunity to meet with peers and pros to learn and share knowledge.
- 4 Visit the Exhibit Hall.** There are more than 300 exhibitors hoping to catch your eye and attention. Be sure to block out plenty of time in your schedule to visit with vendors and check out the wide variety of booths. It's always a busy, vibrant part of the meeting you don't want to miss.
- 5 Go to the FREE Career Networking Event.**  
4:30-6:30 p.m. | Friday, March 8 | Grand Ballroom in the Marriott Marquis  
Meet with potential employers, explore different practice styles, network with other job seekers, and get a free headshot for your resume or portfolio.
- 6 Stop by the AAD Resource Center within the Exhibit Hall.** AAD staff is on hand to assist with any questions you have and to guide you with products you need to help you with next steps in your career. New this year, complimentary professional headshots, brought to you by CareCredit. There is always something happening at the Resource Center, see page 9 for more details.
- 7 Get social!** Follow @AADmember on Facebook, Instagram and X. Share your experiences and photos with friends and colleagues using the official meeting hashtag #AAD2024. Look for the giant AAD letters for a fun photo opp in the convention center and participate in the daily challenges on X and Instagram!
- 8 Check your email for the DermWorld Daily News and Morning Agendas listing key session and event details.** Refer to the Meeting News Central ([aadmeetingnews.org](https://aadmeetingnews.org)) for highlights of daily activities and snippets of sessions you may have missed. Who knows, you may even spot yourself in the popular [Photo Gallery](#).
- 9 Introduce yourself to someone new every day.** Challenge yourself to meet a new colleague, find common ground, or share a laugh. This is the perfect time and place to expand your network and make new connections.
- 10 Enjoy!** Make the most of this once-a-year event by learning at the sessions, visiting the Exhibit Hall, engaging with peers, and taking advantage of everything the AAD Annual Meeting has to offer. Stop in at the **DermWorld Happy Hour** on Thursday, March 7, to meet the editors. Pop into the **Resident Jeopardy** event and watch your peers compete on Sunday, March 10. Welcome to San Diego, and enjoy!

DERMATOLOGIST RECOMMENDED BRAND

**Dear Dermatology Residents and Young Physicians:**

For more than 90 years, Neutrogena® has supported and partnered with dermatology professionals, from residency through their years in practice. We aim to make sophisticated science simple, delivering solutions that balance clinical efficacy with premium aesthetics. Our scientists study skin from the outside in and the inside out to formulate products that protect and nourish the skin.

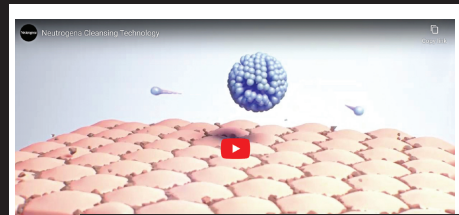

As you explore the evolving world of skincare, we are here to keep you informed on the latest advances most relevant to your patients. Our broad portfolio includes solutions for every aspect of daily care, from photoprotection, hydration and cleansing, to skin renewal and acne. We respect your role in helping patients discover the right at-home regimen for their personal best skin. In fact, our research shows that strategic use of over-the-counter skincare products can enhance patient compliance to Rx therapies and help boost and protect skin’s vital functions.

We invite you to become part of our extended family at [www.NeutrogenaMD.com](http://www.NeutrogenaMD.com).

Once signed up, you can expect to receive news on a variety of skin-relevant topics, including:

- SKINCARE INNOVATIONS
- HOT TOPICS IN LITERATURE
- PATIENT INSIGHTS AND EDUCATIONAL RESOURCES

Beyond your inbox, you can request product samples and access a wide range of assets online to support your growing practice. Additionally, we take pride in supporting your unique professional journey through curated educational sessions, including exclusive webinars, dinner programs, lunch and learn events, and support of your community service initiatives.
