In the quest for confidence
GOLD IS THE GOAL

THE
UROLIFT™ 2 SYSTEM
 WITH **ADVANCED TISSUE CONTROL (ATC)**

Designed for all prostate types.

Innovating on the #1 minimally invasive BPH treatment chosen by urologists and patients in the U.S.,¹ the UroLift™ 2 ATC System **simplifies treatment** for urologists and combines **proven platform** benefits with improved tissue control—for **greater confidence.**²

Indicated for the treatment of symptoms of an enlarged prostate up to 100cc in men 45 years or older. As with any medical procedure, individual results may vary. Most common side effects are temporary and include hematuria, dysuria, micturition urgency, pelvic pain, and urge incontinence.³ Rare side effects, including bleeding and infection, may lead to a serious outcome and may require intervention. Consult the Instructions for Use (IFU) for more information.

Caution: Federal (USA) law restricts this device to sale by or on the order of a physician.
