Figure 1. HGNS Evaluation, Activation, and Monitoring

1. Evaluation with baseline PSG and DISE
2. Hypoglossal nerve stimulation implant surgery
3. Implant activation in clinic
   1 month postop with wound
4. Acclimation PSG with goal of AHI<5
   1-3 months after surgery
5. Titration PSGs every 6 months until device optimized
6. Repeat PSG every 1-2 years for 5 years
