VIDEO PODCAST

WEBINAR FORMAT THAT USES VIDEO TO ENGAGE YOUR TARGET AUDIENCE

A new webinar format that uses video to engage your target audience. Video Podcasts are interactive, easy to consume and offer more shelf life than a traditional webinar.

Traditional webinars are time consuming and require company resources at a time where marketers are stretched thin and don't have several hours to create powerpoint presentations. Video Podcasts require a fraction of the time while the end result is a better quality product that can be used to generate qualified leads across all marketing channels.

Video Podcasts are pre-recorded, edited and approved by sponsors before the canned video podcast is presented "live".
